

Artist of the Month – September 2011

Avery Feloni

Grade: 12

Teacher: Mr. Lack

Course: Advanced Portfolio Honors

School: Holliston High School

The lesson: I created this drawing in my Advanced Portfolio class, taught by Mr. Lack. He set up a still life arrangement in the middle of the classroom and instructed us to draw an abstract charcoal interpretation. The process of creating the levels and depth began by creating a charcoal field as the foundation. I then went in with a heavier charcoal and outlined the negative space. From there, I drew with an eraser and targeted the highlighted areas and followed that by addressing the shadows.
