(cue: movie trailer voice guy) in a world of neurotic bosses, in-laws, dying cell phones and agonizing relationship talks, one bottle stands alone. created in a secret lab in queens, new york, this bottle's sole mission is to combat the dreaded loss of b vitamins from stress (gasp!). naturally sweetened, only 10 calories per serving and armed with vitamins b₃, b₅, b₆ and b₁₂, this drink was created to help you cope with whatever life throws at you... whether it's the kitchen sink, the book, a curveball or even a shoe from a member of the foreign press. (duck... but don't forget most people have two shoes!)
