 Designed by Azzami Jordan, Inc. Powered by the tmSuite™ of Marketing Technologies.

The purpose of this letter is provide information to customers regarding the use and handling of peanut butter in our Hanover, PA and Goodyear, AZ production facilities to alleviate concerns of this ingredient coming into contact with our other snack products.

- Both the Peanut Butter and Cheddar Cheese Pretzel Sandwiches are produced on a separate, dedicated production and packaging lines.
- These lines are located in a restricted area of the plant. Only people who have proper authorization are allowed to enter the area.
- The people who work in these restricted production areas are required to wear protective garments to cover their clothes, hands and shoes. In addition, they are not allowed to work on any other production line.
- We do not process peanuts in our facility, only peanut butter as supplied to us from an outside vendor.
- The peanut butter and cheese are stored sealed in separate locations away from other ingredients.
- Equipment utilized in these production/packaging lines are not stored or utilized elsewhere in the facility.

***We do not handle peanuts or tree nuts in any of our production facilities. We take the processing and handling of peanut butter in our two facilities very seriously and we hope the comprehensive precautionary steps we have instituted meet with your satisfaction. We listed this allergen information on the package to inform our customers that we handle peanut butter. It is in no way an omission of our responsibility but rather our mission remains to ensure the integrity and safety of every product we make.***

Sincerely,

Mark F. Steele  
Director of QA/Regulatory Compliance  
Snyder's of Hanover, Inc.
