

Family Technology Contract

We the -----family, believe our family values include integrity and compassion. Every member of the family understands that the use of technology must reflect our values.

Therefore we understand that the following are in direct contradiction with our values.

- Using someone's password or identity without his/her consent
- Spreading gossip or hurtful text messages
- Making or forwarding sexually suggestive photographs
- Sending viruses
- Participating in Internet polling that is designed to hurt or humiliate others
- Creating and participating in insulting websites and blogs
- Using FaceBook or any other website for the purpose of creating, viewing or participating in the humiliation others

If any family member is found to be in violation of this contract, the following will occur:

First violation: Computer and cell phone privileges ended for _____

Second violation: Computer and cell phone privileges ended for _____

Third violation: One of the person's most valued privileges will be taken away. (Remember an iPod is a privilege and so is participating in team sports.)

While we understand that anyone can make a mistake, we believe that living by these values is critically important.
